

K-Love radio is a fantastic service to the local community as well as the nation. It is one of the few Christian radio stations that is commercial free. Although it is national, it still gives local information regarding events and concerts. The music and all the programming is always positive. K-Love plays many artists whose works might otherwise not be heard. It is listener supported, so obviously its' listeners want it to be there. This station provides more than just music, it's an extended family for many. There are so many commercial radio stations, we don't need more. I personally would stop listening to the radio if K-Love is displaced by an LPFM broadcaster. It is definitely in the public interest to allow it to remain on its current frequencies.
